

A photograph of three young adults (two women and one man) smiling and preparing food in a kitchen. They are gathered around a wooden table, chopping vegetables and preparing a meal. The woman in the center is wearing a plaid shirt and an apron. The man on the right is wearing a yellow t-shirt. The woman on the left is wearing a green top. The table is set with various ingredients including tomatoes, cucumbers, mushrooms, and a large bag of sweet potatoes. There are also glasses of orange juice and a wooden spoon on the table.

THE NEXT GENERATION **shrink bags**

Viscofan

*Reshaping food and wellbeing.
For many, for long.*

Expertise & excellence

**to deliver the next generation
shrink bags.**

Discover Viscofan's innovative range of shrink bags! A disruptive new generation that uses less plastic, has greater durability and exceptional appearance to meet the new needs of European consumers who are facing uncertain and distressing times.

Our state-of-the-art extrusion technology allows us to use less plastic while retaining the strength and puncture properties, making a more sustainable product. Take advantage of the extra shrink for a high-quality vacuum shrink bag with minimal folds & wrinkles.

Your products deserve the best. Whether you are packaging bone or boneless (in meats, poultry, or deli items) Viscofan has the most appropriate shrink bag to meet your specific requirements. Exhibit an utmost appearance with high gloss, superior clarity and a smooth shrink finish while benefitting from all the efficiency standards of our solutions. Our new product range offers the ideal combination of shelf life, look, performance and sustainability for retail and foodservice. Bring your innovations to a whole new level with Viscofan!
